DELAWARE FORESTRY ASSOCIATION

established 1982

www.delawareforest.com

Supporting and protecting private forest landowners and the forest industry's right to practice forestry

Mission Statement

The Delaware Forestry Association is a non-profit corporation of the State of Delaware (1982) and functions to support and protect private forest landowners and the forest industry's right to practice forestry through public policy and educational efforts.

Goals of the Delaware Forestry Association

The Delaware Forestry Association was formed to conserve, develop, protect and promote the timber and timberlands of the State of Delaware, and the management thereof, for the best interest of this and succeeding generations.

Membership is open to anyone interested in supporting the goals of better forest management. Our current membership list includes landowners, loggers, environmental organizations, foresters and private industry.

An individual need not own land to have an appreciation of the importance of managed forests to all Delawareans. DFA members have the opportunity to express that appreciation and to have a voice in the future of Delaware's forest resources.

DFA was established and incorporated in 1982 with the support of the Delaware Department of Agriculture, private forest landowners and the forest industry of Delmarva.

DFA Activities and Accomplishments

- Conduct educational field trips which emphasize forest management for the general public and elected officials.

- Maintain communication between landowners, industry and government.
- Encourage environmentally sound forest management practices.
- Endorse the use of professional forestry advice in harvesting, marketing and reforestation of private, non-industrial forestland.

- Holds an annual spring banquet.
- Publishes a biannual newsletter.
- Sponsor of the Delaware Envirothon.

- Coordinated the development of Forestry Best Management Practices for Delaware loggers.
- Testify on State Legislation affecting forest landowners.
- Support the Delaware Tree Farm Program.
